

OMNIplus Workshop Training for Bus Customers Training Course Overview 2024

OMNIplus

Your performance plus.

Helpful information for your co-workers

New in 2024:

- ✦ Learning on demand – retrieving knowledge when it is required: We expand our range of eLearnings so that you can learn more flexibly in the future.
- ✦ Blended learning concept: For 2024, we offer you yourselves five training in various fields of competence as a blended learning concept. In concrete terms, this means a combination of a digital part in the form of virtual classrooms / eLearnings and face-to-face training. Here you can benefit from the strengths of the individual forms of learning. On the one hand, the virtual transfer of knowledge without travel expense and the deepening of knowledge and acquisition of practical skills in practical training.
- ✦ Future of electromobility and hydrogen: All training courses on the professional handling of electric and hydrogen vehicles and their high-voltage and hydrogen technology can be found in the new competence field “High voltage/hydrogen”. Of course, we will be happy to answer your questions regarding the correct qualification!

Who we are:

- ✦ The OMNIplus Training Team is global with 55 trainers in 29 countries.
- ✦ The OMNIplus Training Team has a wide-range of bus and coach specific knowledge and experience thus guaranteeing top quality training for you and your employees.
- ✦ As a manufacturer of Mercedes-Benz and Setra buses and coaches, our own OMNIplus Training Team is perfectly placed to assist you with the challenges and requirements of your daily business.

What we do:

- ✦ We provide training around the globe.
- ✦ We provide training for every aspect of your bus or coach, either through our classic training modules or through a tailor-made course to suit your vehicle range, technical challenges and prior knowledge of your workshop staff.
- ✦ We provide DriverTraining courses to equip drivers with the vehicle-specific knowledge and the confidence to get the best performance out of your Mercedes-Benz or Setra bus or coach.

What we stand for:

- ✦ Technical excellence – we work closely with our R&D and Operations Departments to always deliver the most up to date and relevant technical training courses.
- ✦ Constant improvement – we continually review our training courses and rework them to ensure a real transfer of knowledge to you and your employees.
- ✦ A global solution – no matter where in the world you attend an OMNIplus Training Course, you will always receive the same top quality teaching standard.

Explanation

Differentiation between face-to-face-trainings and online-trainings:

Training courses, beginning with S 01 and W 02, take place as face-to-face Training in our Training Centers or at your location.

Training courses starting with T 81 and E 81 take place in digital form, i.e. as eLearning and training courses starting with S 81 in a virtual classroom. Access to a computer with an internet connection is required.

Master: Training courses of the master level are for further specialisation and thus aimed at the procurement of problem solving strategies.

Professional: These training courses are in line with each area of competence and gives additional knowledge for professional service, repair and maintenance or carrying out retrofits. Please note the information in this catalog and on the Bus Training Platform for requirements.

—> **Attending the trainings in the prescribed order is an entry requirement.** Solid arrow connections between different trainings make it clear that there is a build-up relationship here. Attending the advanced training course requires attending the advanced training course.

----> **Recommendation.** Dashed arrows indicate that OMNIplus Training recommends that you attend training courses in this order.

..... „either or“. Dotted connections between two trainings make it clear that only one of the two trainings is a prerequisite.

Please note in any case the detailed description of the individual training courses in the Bus Training Platform

<https://training.buses.daimlertruck.com/>

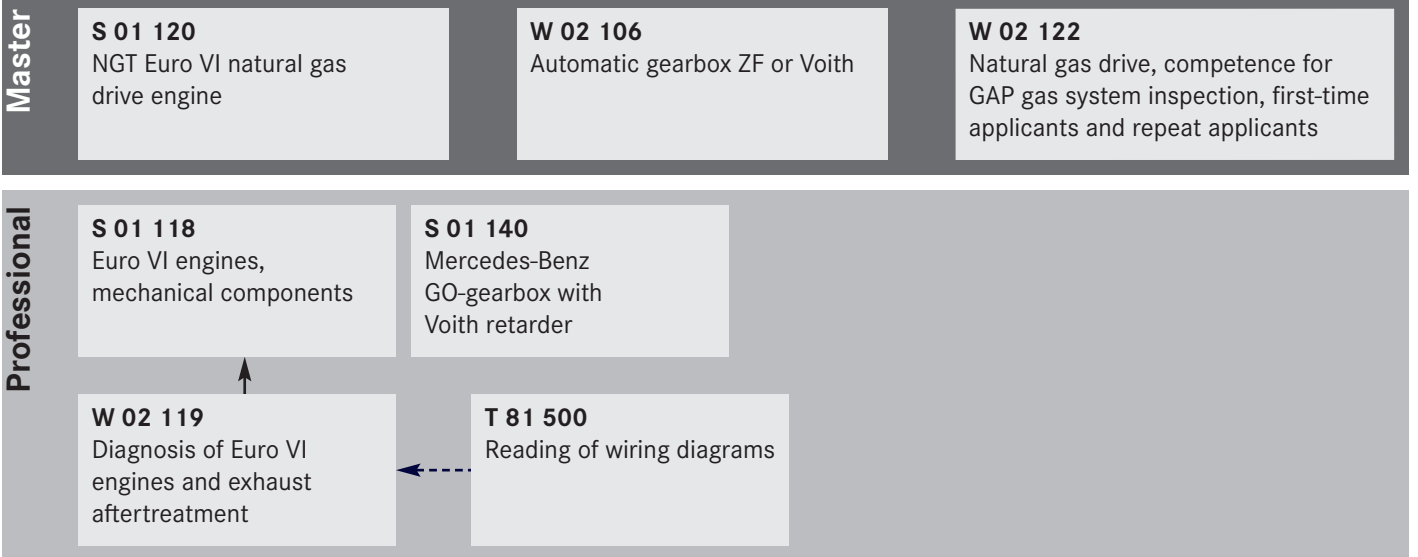

To ensure that your drivers are also optimally trained, please see our DriverTraining offer on the Internet at www.omniplus.com > Support > Trainings > DriverTraining.
