

OMNIplus WorkshopTraining for Bus Customers Course overview 2025

Helpful information for your employees

Who we are:

- → OMNIplus Training has a global team of 55 trainers in 29 countries at your disposal.
- → Our trainers' have many years of experience in buses with outstanding technical training guaranteeing a high level of training success for you and your employees.
- As a manufacturer of Mercedes-Benz and Setra Buses, we offer you a completely independent bus training course. This way, you can be sure that we can fully respond to your wishes and needs.

What we deliver:

- + We offer you global service training courses from all relevant specialist units relating to buses.
- ♣ If necessary, we will put together an individual training course tailored to your vehicle fleet and your technical challenges contact us!
- → Do you also want your drivers to stay up to date? Find out more about our comprehensive DriverTraining range!

What we stand for:

- → As the manufacturer's own training provider, we maintain close contact with development and production and always offer you training courses that are state-of-the-art!
- → We want you to benefit: through consistent further development, our training courses always correspond to modern standards in methodology and didactics.
- → For you around the world: no matter where you attend our training courses you get the same standard everywhere.
